## DETAILED ACTION

1. Claims 1-2,5-6,9,12,15,18-23, and 28 have been amended.
2. Claims 1-28 are pending.

### ***Response to Arguments***

3. Applicant's arguments filed on 11 January 2005 have been fully considered and they are persuasive.

### ***Allowable Subject Matter***

4. **Claims 1-28** are allowed.
5. The following is an examiner's statement of reasons for allowance: The present invention is directed towards a system for encrypting data from multiple multimedia applications. Each independent claim identifies the uniquely distinct feature "**assigning a third key register for decrypting data from the first application, based upon a request for re-authentication**". The closest prior art, Kori et al. (US Patent No. 6,480,607) discloses a data reproducing method and apparatus, a data transmitting method, a data transmitting system, and a data processing method and apparatus for protecting the copyright of data recorded on a recording medium or transmitted over a transmission medium, and for safeguarding against unauthorized duplication, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.
6. Therefore, **claims 1,6,18,23, and 28** and the respective **dependent claims 2-5,7-17,19-22, and 24-27** are in condition for allowance.

***Conclusion***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
